Notes

An extensive list of classes is given in this form. If you wish to make a Return for one or more of these classes, remembering to take in to account the listed configurations, then enter your data against the listed class. For groups not listed below please add the full details in the spaces below the listed classes. Dinghies, Keelboats, Multihulls and Cruisers should be grouped together and Categorized accordingly. Include all classes at your club even if you consider the current published Number to be correct - confirmation is important. Do NOT include one-off design boats. For examples of how to complete this form please refer to the hard copy Return.

Enter in the columns as follows - one line per CLASS OR TYPE

- a) **ID** - For RYA office use. Do not enter
- b) **CLASS OR TYPE** - Enter in BLOCK CAPITALS the Class name or manufacturer's type e.g. SOLO, CONTESSA 32, COMET DUO, COMET TRIO, DART 15, DART 15 SPRINT, JEANNEAU SUN ODYSSEY 35. It is important that you give the precise name and version.
- c) **DESCRIPTION** - Enter any option permitted by class rules or differences not indicated by the CLASS OR TYPE - i.e. any departure from standard trim e.g. MIRROR - MIRROR FULL RIG.
- d) **PER'S - Number of Persons aboard - for dinghies, multihulls and keelboats only** - Pick either - 1=One person, 2=Two persons, 3=Three persons, 4=Four persons.
- e) **RIG - for dinghies, multihulls and keelboats only** - Pick from list - U=Una (single sail), S=Sloop (mainsail and headsail), M=Yawl or Ketch (mainsail, headsail and mizzen).
- f) **SPIN' - for all boats** - Pick from list - 0=No spinnaker, C=Conventional symmetric spinnaker, A=Asymmetric spinnaker or cruising chute, CA=Both symmetric and asymmetric may be flown in the same race.
- g) **ENG - for cruisers only** - Pick from list - IBF=Inboard engine, feathering/folding propeller, IB2=Inboard engine, fixed two bladed propeller, IB3=Inboard engine, fixed three bladed propeller, OB=Any arrangement that allows the propeller to be removed from the water, or no engine. If more than one configuration is in use at your club, make a separate entry on a new line for each.
- h) **KEEL - for cruisers only** - Pick from list - D=Drop keel adjustable while racing, F=Central keel (fixed down while racing), 2K=Twin bilge keels, 3K=Central & Twin bilge keels. If more than one configuration is in use at your club, make a separate entry on a new line for each.
- i) **CAT** - Pick from list - D = DINGHY, K = KEELBOAT, M = MULTIHULL, C = CRUISER.
- j) **BOATS** - Enter the number of individual boats of the class or type that finished one or more races. e.g. Your club has six Solos all of which has started one or more races, but 1 failed to finish any. Enter 5.
- k) **RACES** - Enter the total of the number of races finished by each boat of the class or type. For example, of your 6 Solos: 1 failed to finish (0), 1 finished 3 races (3), and 4 finished 5 races (4x5). Enter (0+3+20=) 23.
- l) **NUMBER USED** - Enter the Portsmouth Number currently used by the club for calculating normal handicap race results (i.e. not a personal handicap).
- m) **NUMBER PROPOSED** - Enter the Portsmouth Number you consider to be the fairest on your waters. This may be the same as the Number published in YR2, the Number in the USED column or a different Number. The Number must relate to the class or type you describe and be what you consider fair when raced by an average crew, on your waters, against similar crews sailing the other boats of the same category that you list.
